# Father and Son Complete Truck Driving Training

Patrick Kimbrough, Sr., a former project manager in construction and Patrick Kimbrough, Jr., a welder by trade, were looking for a change with a vision of a family business in the future. The father and son duo are from Laurel and the nearest truck driving program they looked into had a waiting period. They were then told about ECCC's program which has classes that are offered more frequently and they wouldn't have to wait to start their training. Patrick Jr. then stayed in the family camper at Turkey Creek and his father commuted while enrolled in ECCC's Truck Driving Program offered through the College's Workforce Development Center.

The father and son team have now completed the program successfully and have started their own family trucking business, Kimbrough & Son Trucking, LLC. When asked about his experience, Patrick Sr. stated that "It was a great experience with great instructors. You can really tell that the instructors want you to succeed; I have no complaints at all."

The ECCC Truck Driving Program is available in the college's five county district: Newton, Neshoba, Leake, Scott, and Winston counties with instructors bringing the training to you! Contact Chris Clark, ECCC Workforce Development Coordinator, for more information on when and where the next classes will begin at 601-635-6245 or toll free at 1-877-462-3222, Ext. 245; or email him at [cclark@eccc.edu](mailto:cclark@eccc.edu).

## We bring the training to you!
