ADDITIONS & MOVES

This summer, the Success Center was moved to the Library. The computer lab is now located in the room off the lobby. Mrs. Mary Boulton's office is located where Study Room #1 used to be, and Study Rooms #2-4 will be used for Tutoring.

The Success Center's webpage has also been updated with lots of useful links, including those listed below. You can view it at this link:

The Library's lighting has been updated to LED, so the Library is much brighter.

Updates to the Library Webpage

This summer, we also recorded several resource and database tutorials and linked them to the webpage. The Burton Library Resource Tutorial and the Films on Demand Tutorial are both done with screen recording and vocal narration. The Citing Your Sources Presentation and Credible Sources Presentation are both done through Prezi software. The A to Z the World Overview, CQ Researcher Overview, CREDO Reference Overview, Opposing Viewpoints Overview, and World Book Online Overview were done with screen recording and music, but no vocal narration. The CINAHL Tutorial, EBSCOHost Databases Tutorial, EBSCO Discovery Service Tutorial, and Learning Express Library Tutorial were all from the vendor's websites. Hopefully these will be useful to you.

We have also added a "Buy It Now" icon with a link on the bottom-right side of our webpage.

Anything purchased through this link allows a percentage of your purchase to be given back to the library in the form of new services from SIRSIDynix, our Library Management System. If you are interested in finding out more, please feel free to ask either Leslie Hughes or Elizabeth Minter about it.
